How to complete the Irving Institute's TL1 Predoctoral Application

The TL1 application is available only on the CUIMC campus or via VPN. It is firewall-protected. Once you are connected to the CUIMC network click in the link below that will take you to the application interface (WebCAMP) and follow the steps-by-step instructions provided below.

Link to TL1 Predoctoral Application:

Stage 1 | Submit Notice of Intent

1. The link provided will take you to the application initiation page. Answer yes/no and click continue.

2. If you selected yes, you will be taken to a screen where you can indicate whether or not your research study has human or animal subjects.

   - If you select yes to the human subjects question, additional questions will pop up asking you to specify if those human subjects are children or adults.
     - You will also be asked to indicate if your study is a clinical trial. If you select yes for clinical trial you will need to indicate the phase of the clinical trial.
   - Note, if you select yes for animal subjects, you will not be asked additional questions at this time.

3. Next indicate what stage of translational research best describes your study and click continue.
4. Enter your name and the title of your study and click continue

5. Note: If you have never applied for any of our training programs/services your information will not exists in our database. As such, when you click “continue” you will be taken to a screen to enter your demographic information.
Next you will be instructed to create a password.

6. If you do exist in our database, then confirm that your information is correct by selecting yes/no and click continue
   - Irrespective of whether you select yes or no, you will be given the opportunity to update your information on the next screen

You have now completed the notice of intent stage. You will receive an email confirmation. You can access the application from the link provided in the confirmation email.
Stage 2 | Navigation

1. Using the link provided in your confirmation email, login to the WebCAMP application interface.

2. Click on the “Current/Past Applications” tab. You should see your application listed.

3. Under the column “Abbreviated Title” select the “View/Edit” link associated with your application.

4. Another window will pop up entitled “Application Status Page”. This is the page you will frequently refer to, to ensure that all parts of your application are complete.
• Note the link at the bottom of the page that allows you to run a detailed completeness check to find out exactly what your application might be missing

• On the left hand side of this window you see links to the various sections of the application; the first of which is to the “application status page” you are currently on.

Stage 3 | Completing the Application

1. Now that you understand the layout of the application window click on the “Trainee Application Form” link on the left hand side of the “application status page”

2. Select your citizenship status. Then the remainder of the application fields will appear.
3. Ensure that all fields of the “Demographics”, “Project Summary”, “Multidisciplinary Integration”, “Proposed Research Study”, “Mentor(s)”, and “Publications” are updated as applicable. As you make edits the “save changes” button will appear in the upper right side of the window. Click the “save changes” button after you edit each section of the application. (you might have to scroll back up to see the button after each section is updated)
   - Note that if you missed something in the section you are trying to save changes for, the system will not allow you to save until you have completed all mandatory fields in that section.

5. Do not click the “close” button in the upper right side of this window until you are finished all of your updates.
   - Clicking “close” will close the entire window and you will need to go back to the “view/edit” link the “abbreviated title column of the application interface to navigate back to your application window.
   - If you are regularly clicking “save changes” as you complete your application then all of your edits will be there when you do come back to the application form

6. After you have completed the “Trainee Application Form” and saved all changes click on the “Academic and Dissertation Information” link in the left hand navigation bar.
7. After you have completed the “Academic and Dissertation Information” form click on the “Targeted Enrollment Form” link in the left hand navigation bar
   • The process here is the same as in step 3: complete each field and save as you go

8. After you have competed the “Targeted Enrollment Form”, click on the “Other Support” link in the left hand navigation bar.
   • Add any other sources of support you have for this study
   • The process here is the same as in step 3: complete each field and save as you go

9. After adding any additional support you have, click on the “Biographical Sketches” link in the left hand navigation bar
• Upload and save your biographical sketch (pdf only)

10. Next click “Supporting Documents” link in the left hand navigation bar

• Upload all required documents (pdf only)

11. After completing all fields in all of the forms and upload your supporting documents click on “Run Completeness Check” under the “options” section in the left hand navigation bar

• A third window will pop up showing all of the sections of your application with missing items.

• This window will have links to each of the sections with missing information. Each of those links will open a new window. We suggest going through this list one link at a time, closing each window after you have made your edits and saved your changes.
12. When you are sure that all of the missing information has been completed run the completeness check again and/or navigate back to the “Application Status Page” to ensure that all sections are complete.

13. Submit application. You will receive a confirmation email.
Your application has passed the completeness check! Please select next when you are ready to submit for review.

You have selected to submit the current application for review. An application should be submitted only after all sections have been completed. OR you have received an exemption from the Preclinical Review Coordinator for certain sections. If you proceed, the application will be locked and submitted to the Intranet for review. You will be prevented from making further changes until the review process is complete. Do you wish to continue?
