VapeScan Heart and Lung Study

Interested in e-cigarette/vaping research?

Columbia University researchers are studying the effects of vaping.

You might be eligible if you are 18 to 50 years old and:

- Vape (any product)
- · Smoke (now or in the past)
- · Never smoked or vaped

Participants will:

- Receive a CT scan to assess their hearts and lungs
- Answer questions about health, vaping, and smoking
- · Provide a sample of urine and blood

All information gathered will remain confidential. You can receive \$450 and more for your participation.

For more info, call 646-801-8779 or email vapescanstudy@cumc.columbia.edu.
